BASEhabitat
International Summer School
on earthen and bamboo construction

Photography: Stefanie Hübner

Participate and learn from the world's leading experts in earthen and bamboo construction!

Programme

Building practice is the main focus of these two intense weeks, supplemented by theory inputs and a great possibility of establishing international networks.

Workshops on different techniques

Choose two out of four workshops:

ADOBE amàco - Franco Noriega | Zoé Tric

RAMMED EARTH Dominik Abbrederis | Tobias Fritz

EARTH FIBRE SURFACE Francois Streiff | Becky Little

BAMBOO Jörg Stamm | Michael Brunmayr

Theory Classes and Material Science

Sustainable architecture is challenging.

Improve your skills and know-how in lectures, groupwork and discussions.

Tutors and lecturers are going to share their passion.

Anna Heringer, Martin Rauch, Christof Ziegert and many others

Field Trip

Visit examples of vernacular architecture in Austria.

Peer Lectures

Present and discuss your own projects and benefit from this great network!

Who can participate?

Architects, craftsmen, students and lecturers from all over the world, interested in sustainable architecture.

Formalities

Costs – 1.650 € including accommodation, food (full board) and field trip

Application – until 2 April 2018

Fill in the application form on our website and upload a short portfolio, max. 6 pages A4 b/w
